

CTF: Midnight CTF qualifs  
Challenge: I Believe I Can Fly  
Category: OSINT  
Team: ForenSick  
Version: 1.1

*A file is provided by the staff: I\_believe\_i\_can\_fly.png*

**4 needs:**

1. Municipalities of the springboard
2. Name of last record holder in the springboard
3. The date of the first record of the springboard
4. The first edition of the 'Concours International de Ski' took place

Method: Reverse image search (images.google.com)

Results: We got it. The same image but uncropped.

Answer: **Lans En Vercors**

Method: Google search engine with keywords

Keywords: “Concours international de ski” + City (Lans En Vercors)

Answer: “Le 20ème concours...” translated as the **20<sup>th</sup> championship**.

State: Searching now for the springboard

Method: Google search engine with keywords

Keywords: “*Tremplin de lans en vercors record*” (French).

Results: After visiting websites, we got one interesting:

[History:](#)

The large ski jump in Chênevarie at Lans-en-Vercors was inaugurated on February 8, 1931 as part of the 20th international ski competition of Villard-de-Lans. The Lasueur from Switzerland won the competition with a jump of 45 meters, but out of competition the Norwegian Simonsen reached 61 meters. The hill, which allowed jumps of up to 70 meters, was probably only used for a few years.

Answer: It's confirming the 20<sup>th</sup> international ski competition ! And we have 2 people here: **Olav Ulland** and **Simonsens**. Both are about 61 meters for their records !

If we're following the information staff gave us : “*Name of last record holder in the springboard and The date of the first record of the springboard*”. So technically, the last record holder is the one in 1934 so **Olav Ulland**. And the date of the first record is with **Simonsens**: **1931-02-08**.
